Contents of Volume 9

No. 1

Research Papers

M.J. Rubino and D. Walker (U.S.A.)
Immunosuppression and murine polyomavirus infection (VRR 00373) 1

G. Roy and P. Chartrand (Canada)
Polyoma integrates readily in mouse cellular DNA (VRR 00371) 11

M.E. Wilson (U.S.A.)
A synthetic peptide to the predicted 6.9K translation product of the *Hin*dIII-H/*Eco*RI-D region of the AcNPV genome induces antibodies to the basic DNA-binding protein (VRR 00372) 21

K.M. Obom and B.G.-T. Pogo (U.S.A.)
Characterization of the transformation properties of Shope fibroma virus (VRR 00374) 33

D.S. Turner and S.N. Covey (U.K.)
Discontinuous hairpin DNAs synthesised in vivo following specific and non-specific priming of cauliflower mosaic virus DNA (+) strands (VRR 00377) 49

J. Scholz, A. Rösen-Wolff, M. Touray, P. Schnitzler and G. Darai (F.R.G.)
Identification, mapping and cloning of the thymidine kinase gene of fish lymphocystis disease virus (VRR 00375) 63

G.M. Glenn and R.P. Ricciardi (U.S.A.)
Detailed kinetics of adenovirus type-5 steady-state transcripts during early infection (VRR 00376) 73

Nos. 2/3

Research Papers

I.C. Pan, T.C. Whyard, W.R. Hess, N. Yuasa and M. Shimizu (U.S.A.)
Epitopic diversity of African swine fever virus (VRR 00386) 93

S. Mousset and J. Rommelaere (Belgium, France)
Susceptibility to parvovirus Minute virus of mice as a function of the degree of host cell transformation: little effect of simian virus 40 infection and phorbol ester treatment (VRR 00379) 107

S.J. Child, C.A. Franke and D.E. Hruby (U.S.A.)
Inhibition of vaccinia virus replication by nicotinamide: evidence for ADP-ribosylation of viral proteins (VRR 00380) 119

P.T. Massa, H. Wege and V. Ter Meulen (F.R.G.)
Growth pattern of various JHM coronavirus isolates in primary rat glial cell cultures correlates with differing neurotropism in vivo (VRR 00378) 133

A.R. Gould
Conserved and non-conserved regions of the outer coat protein, VP2, of the Australian bluetongue serotype 1 virus, revealed by sequence comparison to the VP2 of North American BTV serotype 10 (VRR 00381) 145

Review Article

L-H. Wang and H. Hanafusa (U.S.A.)
Avian sarcoma viruses (VRR 00383) 159

I.K. Buxton, S.P.K. Chan and P.G.W. Plagemann (U.S.A.)
The IA antigen is not the major receptor for lactate dehydrogenase-elevating virus on macrophages from CBA and BALB/c mice (VRR 00382) 205

M.L. Zucker, S. Dube and W.H. Prusoff (U.S.A.)
The effect of 5′-amino-5′-deoxythymidine on the pattern of polyadenylation of herpes simplex virus type 1 ribonucleic acid (VRR 00385) 221

D.D. Auperin, J.J. Esposito, J.V. Lange, S.P. Bauer, J. Knight, D.R. Sasso and J.B. McCormick (U.S.A.)
Construction of a recombinant vaccinia virus expressing the Lassa virus glycoprotein gene and protection of guinea pigs from a lethal Lassa virus infection (VRR 00384) 233

W.C. Reinhold, S.E. Straus and J.M. Ostrove (U.S.A.)
Directionality and further mapping of varicella zoster virus transcripts (VRR 00388) 249

D.A. Spodick, A.K. Ghosh, S. Parimoo and P. Roy-Burman (U.S.A.)
The long terminal repeat of feline endogenous RD-114 retroviral DNAs: analysis of transcription regulatory activity and nucleotide sequence (VRR 00387) 263

No. 4

Research Papers

A.R. Gould and L.I. Pritchard (Australia)
The complete nucleotide sequence of the outer coat protein, VP5, of the Australian bluetongue virus (BTV) serotype 1 reveals conserved and non-conserved sequences (VRR 00392) 285

H.K. Narang (U.K., U.S.A.)
A chronological study of experimental scrapie in mice (VRR 00389) 293

B. Garcia-Barreno, J.L. Jorcano, T. Aukenbauer, C. López-Galíndez and J.A. Melero (Spain, F.R.G.)
Participation of cytoskeletal intermediate filaments in the infectious cycle of human respiratory syncytial virus (RSV) (VRR 00390) 307

A.P. Schrader and E.G. Westaway (Australia)
Translation mapping with the flavivirus Kunjin: gene order and anomalies in translation of NS5 (VRR 00391) 323

H.B. Ohmann and L.A. Babiuk (Canada)
Induction of receptors for complement and immunoglobulins by herpesviruses of various species (VRR 00393) 335

J.G. Keck, B.G. Hogue, D.A. Brian and M.M.C. Lai (U.S.A.)
Temporal regulation of bovine coronavirus RNA synthesis (VRR 00394) 343

A. Tada, A. Fuse, H. Sekine, B. Simizu, A. Kondo and S. Maeda (Japan)
Expression of the E2 open reading frame of papillomaviruses BPV1 and HPV6b in silkworm by a baculovirus vector (VRR 00395) 357
